

FUTURE'S BEGINNING

GET READY TO EXPERIENCE A CELESTIAL
JOURNEY THROUGH THE DIMENSIONS OF
BOTH TIME AND SPACE....

INTRODUCING "FUTURE'S BEGINNING" A DVD AUDIOBOOK IN FULL SURROUND SOUND!

Based on characters created by master storyteller Eve Celestial and co-creator Dennis Human, "Future's Beginning" is a professionally produced mystical science fiction tale of the convergence of three elements of the universe – time travel, imagination, and destiny.

Each listener will have a different experience each and every time.

Presented for the first time in full rich and powerful 360° Surround Sound, "Future's Beginning," is a 32 minute fantasy DVD audiobook featuring the professional voice over talents of Darin Skylar, Jennifer Grimm, Casey Moo, and Jeff Nordin as well as musical selections by Wolfgang Amadeus Mozart performed by the Apollo Orchestra, vocals produced by Jeff Myhre. What makes this DVD audiobook truly unique is that the storyline and time-line intersect and arc in such a way as to allow for a different storytelling and listening experience each and every time.

Join *Oliver Pryor* (Darin Skylar) from 1920's England on his and your journey through the reaches of time and space and in the process meet –

- *Eve* (Jennifer Grimm) who is both the beginning and the end as she transcends the dimensions of time and space and represents the future beyond that which we have come to label as reality.
- *General Captain Mann* (Casey Moo) is the mysterious *Savior* and *Keeper of Knowledge* and represents the future's past.
- *Professor Noel W. Edge* (Jeff Nordin), self realized genius and representing the present's past. He has worked for both Thomas Edison and Nikola Tesla and along the way becomes involved with the government's secret World War Two project 'The Philadelphia Experiment' dealing with time travel.

Feel...listen...and experience this interactive professionally produced cosmic journey as you become drawn in with different story interpretations.

AND REMEMBER...LISTEN AT YOUR OWN RISK!
